

ADAM LUXTON

Principal
Engineering / ICT Leader Australia
Brisbane, Australia

Email: adam.luxton@spruson.com

Adam has over 15 years of experience in patents, designs and trade marks, with a robust technical background in Mining Engineering and Software Engineering. He has a proven track record, and is highly regarded in the mining, energy, medical device and consumer product fields, demonstrated by his engagement by large national and multinational companies in these sectors.

Adam has acted as lead patent attorney in a number of Federal Court patent matters. He has also been involved in many opposition matters before the Australian Patent Office, acting for both the applicant and the opponent.

Adam's expertise is widely sought by clients with challenging or contentious intellectual property matters, particularly by those clients in the energy, mining, energy, medical device and consumer product fields. Adam's attentiveness to industry trends assists him to provide relevant IP advice, regarding any developments that may affect his clients' matters.

Adam has been recognised as an Australian IP Star in the 2016, 2017 and 2018 IP Stars Handbook.
